PLATINUM SIGNS

Teardrop Banners

Prepare your artwork

- Supply a CMYK PDF with all fonts converted to outlines and all images and elements embedded. Do not include trim, crop or registration marks.
- Use the template for your selected banner size at 100% scale. Follow its bleed and safe-area guides; do not resize the template or use assembled height as artwork height.
- Bitmap images must be at least 130dpi at full finished size.
- If a Pantone colour is required, specify it from the PANTONE+ Solid Coated library.

Choose the correct size

- Finished fabric dimensions below are width x height. Assembled height includes the pole system and is a separate measurement.

Size	Finished fabric (mm)	Assembled height (mm)
Extra Small	484 x 1347	1830
Small	749 x 1689	2300
Medium	898 x 2234	2700
Large	1055 x 3106	3700
Jumbo	1113 x 4030	4650

Supply your artwork

- Supply artwork with your order. If you need help preparing the production file, choose artwork assistance.
- Check spelling, artwork size, colours, print sides and the selected template before approving your proof.

Assembly and care

- Download the separate flag tensioning and care guides alongside your size template. Follow the instructions when assembling, using and storing your banner.
